

ENGAGING

**FACILITATOR
PIPPA LAWLOR**

Pippa is an accredited PLD facilitator and moderator for Competenz. She is a former technology facilitator for Team Solutions at the University of Auckland with a wide range of teaching experience in primary, intermediate and secondary schools in both the UK and New Zealand.

Pippa's education management experience includes head of department, head of learning area and head of faculty roles. In the UK she has also worked with communities of learning as technology liaison for primary to secondary transitioning. Other professional educational roles have focused on leading cross-curricular initiatives such as STEM, RSA projects and work with industry training providers for vocational education.

Pippa has been involved with several pioneering projects focused on teacher professional development, partnering with organisations as diverse as Goldsmiths College London and Sheffield Hallam University.

ABOUT SEWTEC

DAS Training Solutions (T/A Sewtec Fashion Academy) was established in 2001 to provide an excellent standard of practical training to the people of Auckland.

Sewtec has been specialising in apparel since 2003 and has trained hundreds of students doing a mixture of industrial sewing and pattern making classes. Their students have gone on to display at NZ Fashion Week, Pacific Fusion Fashion and Pacific Runway (Sydney). Many have started successful businesses, gained employment and/or carried on to higher level studies at S.I.T. and A.U.T.

2017

TEACHERS WORKSHOP

INTRODUCTION

This three day block workshop is designed as professional development for teachers of textile technology or design who want to discover innovative ways of working within the assessment framework that maximise the opportunities for student success.

Each day is entirely interactive and hands-on. You will have fun learning at the same time as producing resources that you can take back to your classroom and use with students. Whether you are new to technology, new to textiles or simply looking for new teaching ideas, this workshop is for you.

The calibre is most suitable for Level 2-3 NCEA and during the day we will relate the skills and techniques utilised to the assessment requirements of multiple unit and achievement standards at these levels.

By the end of the series you will have designed, developed the pattern and produced a shirt, jacket or similar upper body garment with structural and style changes using both advanced and complex procedures.

DONT MISS OUT ON THIS INNOVATIVE, PRACTICAL AND EXCITING WORKSHOP!

DAY 1 - PLANNING AND CONCEPTUAL DESIGN

- Ideation strategies
- Modelling on the stand
- Fashion drawing techniques for concept designs
